THE 9TH SANIBEL CONFERENCE: "QUADRUPOLE ION TRAPS," JANUARY 25-28, 1997, SUNDIAL RESORT, SANIBEL ISLAND, FLORIDA

The conference program will focus on fundamental and applied developments in quadrupole ion trap mass spectrometry. Topics will include fundamental principles of operation, structural characterization using MS/MS, MSⁿ and ion-molecule reactions, use of ionization techniques such as electrospray and MALDI, and applications to biochemical and other types of systems. The format of the program will consist of invited speakers and contributed posters, with ample time for discussion. The conference organizers are Gary Glish, University of North Carolina and Raymond March, Trent University. For further information, please contact ASMS, 1201 Don Diego Avenue, Santa Fe, NM 87505. Telephone (505) 989-4517.

45TH ASMS CONFERENCE ON MASS SPECTROMETRY AND ALLIED TOPICS JUNE 1-5, 1997, PALM SPRINGS, CALIFORNIA

The 45th ASMS Conference will be held at the Palm Springs Convention Center. The convention center is located in a resort setting that is combined with the facilities of the Wyndham Hotel. Other conference accommodations are in nearby hotels, most of which are within easy walking distance of the convention center. All conference sessions will be held in the convention center or the Wyndham Hotel. Hospitality suites will be in the Wyndham, Marquis, and Hilton hotels. These hotels are within three blocks of each other.

PROGRAM. Robert J. Cotter, Vice President for Programs, has created a program format that schedules oral and poster sessions throughout the day. The Palm Springs format divides oral presentations into equal sessions and affords poster authors more opportunity to view other posters.

WORKSHOPS. Conference workshops are an important and popular component of the conference program. Your suggestions for workshops are welcome. Please e-mail your ideas to Bob Cotter (rcotter@welchlink.welch.jhu.edu).

ABSTRACTS. Abstracts must be submitted on diskettes provided by ASMS. The deadline for receipt of abstracts is January 17, 1997.

Watch the ASMS web page for details as they become available (<http://www.asms.org>). For further information, please contact: ASMS, 1201 Don Diego

Avenue, Santa Fe, NM 87505. Telephone: (505) 989-4517; FAX: (505) 989-1073; E-mail: asms@asms.org.

ASMS SHORT COURSES MAY 31-JUNE 1, 1997

The following two day short courses will be held Saturday and Sunday, May 31-June 1, 1997, in Palm Springs, CA.

Fundamentals and Applications of MALDI-TOF-MS; Martha M. Vestling and Kevin G. Owens.

Interpretation of Mass Spectra; Lawrence R. Phillips, John H. Callahan, Abdul Mabud, Gordon Nicol, and Terry L. Sumpter.

LC/MS: The Techniques of Electrospray and API; Robert D. Voyksner and Arthur Moseley.

Principles and Practice of Quantitative Mass Spectrometry; Alfred L. Yergey, Mark W. Duncan, and P. Jane Gale.

Proteins and Peptides; Daniel B. Kassel, John T. Stults, and Pierre Thibault.

Quadrupole Ion Trap Mass Spectrometry and Tandem Mass Spectrometry; Scott A. McLuckey, Steven A. Lammert, and Gary J. Van Berkel.

For further information, please contact: ASMS, 1201 Don Diego Avenue, Santa Fe, NM 87505.

Future ASMS Conferences

1997	June 1-5	Palm Springs, CA
1998	May 31-June 5	Orlando, FL
1999	June 13-18	Dallas, TX
2000	June 11-15	Long Beach, CA
